Susan Scott, L.Ac. is a practicing acupuncturist and co-director at Stillpoint Health Associates, which she co-founded in 1991. Stillpoint Health Associates, 4110 Stone Way N, Seattle, Wa. 98103, is an interdisciplinary healthcare clinic with twenty practitioners.

Susan received her Acupuncture Diploma from NIAOM in 1985. As Acupuncture education was in its infancy in the United States at that time, her class of six went to Chongqing, China to fulfill their clinical requirements in an outpatient clinic for over three months. She graduated in the second graduating class of NIAOM in June 1985.

Susan began studying Auriculotherapy and Auriculomedicine in 1987 after attending a workshop at NIAOM from Michael Adams, N.D. She took several advanced auricular classes from Dr. Adams after that time. Because of her special interest in this diagnostic and treatment modality she preceptored with Dr. Adams at his Bellevue office for one year, in addition to being his teaching assistant from 1988 to 1991. Concurrent with teaching Nogier auricular therapy/medicine classes in 1994 to 1996 at NIAOM, Susan supervised an Auricular clinic. As a teaching aid for her classes, Susan compiled and edited a comprehensive study guide for her students.

Susan has pursued intense studies in several other healthcare subjects, attending countless workshops and trainings. Several of these areas of study Advanced Visceral Manipulation with Jean-Pierre Barral and the Upledger Institute from 1990 to the present. In 1997 she completed a one year long certification program in Toyohari Japanese Acupuncture with Stephen Birch, Junko Ida, and several acupuncture 'Masters' from Japan, and has attended many additional Toyohari trainings and conferences throughout North America and Japan.

Prior to becoming licensed in Acupuncture, Susan received her Associate Arts Degree in Laboratory Technology at Shoreline Community College in 1972. She worked at the University Hospital for two years and then at Group Health Hospital until 1985 as a lab technician.
